Languages & Frameworks: PHP, Laravel, JavaScript, TypeScript, C++, SQL, Vue.js, React.js, React Native, Next.js, Nuxt.js

Front-End: HTML5, CSS, SCSS, Tailwind CSS, Bootstrap, Vuetify, Redux, Vuex, Router

API & Integrations: RESTful APIs, JWT, Google Maps API, Mapbox, Instagram API, Microsoft SSO

Testing & Debugging: PHPUnit, Chrome DevTools

Tools & Deployment: Postman, NPM, Composer, Webpack, Babel, Firebase, DigitalOcean, cPanel

Version Control: Git, GitHub, GitLab, Bitbucket

Cloud Services & Deployment: Firebase, DigitalOcean, cPanel, Cloud Deployment

Project Management: Miro, Basecamp, Jira, Agile/Scrum

IDE: PhpStorm, WebStorm, Visual Studio

WORK EXPERIENCE

Full-Stack Developer | Springring, Bahrain (Remote)

Nov 2023 – Dec 2024

- Migrated and unified student, teacher, and parent interfaces into a single React.js application, enhancing UI performance and maintainability by 40%.
- Led the development of a secure consolidated messaging platform, collaborating closely with stakeholders in an agile environment to improve communication efficiency.

Full-Stack Developer | VII Tech Solutions, Bahrain (Remote)

Aug 2022 – Nov 2023

- Developed high-performance RESTful APIs in Laravel with JWT authentication, integrating Google Maps and Mapbox for advanced geolocation features.
- Built dynamic, responsive front-end applications with Vue.js, React.js, and React Native, improving scalability and user experience by 25%.

Full-Stack Developer | Tres Logics, Pakistan (Onsite)

Oct 2021 – Sep 2022

- Designed and optimized secure RESTful APIs in Laravel, reducing server response time by 30%.
- Developed interactive Q&A systems and modern user interfaces with Vue.js and React Native, enhancing user interaction and engagement.

Laravel Developer | Tabs Group International, Pakistan (Onsite)
Oct 2020 – Oct 2021

- Developed an automated ride assignment system using Laravel and Google Maps API, optimizing routing efficiency by 35%.
- Implemented Role-Based Access Control (RBAC) to ensure secure and efficient user authorization.

Full-Stack Intern | Code Brisk, Pakistan (Onsite)
Apr 2019 – Sep 2019

- Contributed to a scalable sales and deduction tracking system, ensuring data integrity and performance optimization.
- Built a real-time result generation system and an article publishing platform, gaining practical full-stack development skills.

EDUCATION

Bachelor of Science in Computer Science
University of Sargodha, Sargodha, Pakistan
Apr 2016 – Aug 2020

CERTIFICATIONS

- freeCodeCamp — Front End Development Libraries Certification (2025)
- Scrum Fundamentals Certified — SCRUMstudy (2025)
- Meta Front-End Developer (Coursera Audit, 2025)

PROJECTS

Selected highlights from 20+ delivered web and mobile applications, including high-impact government and enterprise-level solutions:

Bahrain.bh & Calendar.bh: Developed a cultural event and visa booking platform for the Bahrain government, streamlining citizen scheduling and improving public sector engagement.

PDPFRC & FRC: Optimized parent–teacher communication modules to enhance information flow and user experience in education systems.

SafrCare: Designed advanced healthcare ride scheduling algorithms with route optimization, improving patient transport logistics and efficiency.

Chillup: Built a secure, multi-platform event creation and vendor discovery system with integrated multi-channel authentication.
